Elevation

In Pursuit of Fraternal Excellence

Philosophy
The Office of Fraternity and Sorority Life believes each chapter has the opportunity to elevate their organization and collectively elevate the entire fraternity and sorority community through the continuous process of improvement. The Elevation accreditation program allows chapters the opportunity to determine the best pathway for their success. The program is not a ‘one size fits all’ model, but instead encourages CSU chapters to assess their current reality, determine goals to fit their individual needs, develop action plans to meet their established goals, and reflect on successes and opportunities for improvement. Chapters have the opportunity to continually grow and improve; achieving the goals they set for themselves in each of seven priority areas created to provide congruence with the commonly shared values of fraternities and sororities at CSU expressed in the CLIMB.

Eligibility
All chapters are required to complete each of the seven priority areas each year, including the submission of all requested forms and documentation. The seven priority areas include Academic Achievement, Harm Reduction, Philanthropy & Community Service, Membership Development, Membership Intake/Recruitment & New Member Retention, Chapter Management, and External Relations.

Outcomes
Chapters that meet the Elevation minimum expectations and requirements (receiving 75% of available points) will be considered “accredited” by the Office of Fraternity and Sorority Life. Chapters receiving 75-85% of available points are required to meet with their Office of Fraternity and Sorority Life staff liaison twice per semester the following cycle. Chapters receiving less than 75% of available points will meet with an Office of Fraternity and Sorority Life Chapter Advocate three times each semester in addition to meeting with their staff liaison. Chapters receiving less than 50% of available points will have their executive committee meet at the beginning of the semester with their staff liaison to develop a plan to ensure the chapter meets minimum requirements, in addition to meeting with the staff liaison and the Chapter Advocate at least three times per semester. Failure to comply with outcomes expectations may result in restricted privileges including participation in community wide programming and other social events.

Format
Each priority area includes several sections detailed below:

- **Assessment:** The chapter is asked to conduct an assessment to identify areas of strength and areas of improvement for the given priority area. The chapter should intentionally conduct the assessment in order to understand their current reality and the needs of chapter members, which will allow the chapter to more accurately create chapter goals and an action plan for the priority area. Chapters should consider assessing current members’ beliefs and experiences related to the area as well as external data points (e.g. GPA, chapter surveys, retention statistics, etc.). Following the assessment, chapters should utilize the results to establish chapter goals for improvement related to the priority area. Additionally, chapters should utilize chapter members, officers, advisors, and their inter/national organization for assistance in assessing the current reality in order to develop meaningful chapter goals.

- **Action Plan:** Based on the initial assessment and established goals, the chapter is asked to develop an action plan that outlines the steps the chapter will take to achieve their goals throughout the calendar year. The action plan should directly address the findings from the previously conducted assessment. The action plan can include expectations and programs provided by the chapters inter/national organization. Overall, the chapter’s action plan should outline all steps the chapter will be taking to reach their goals related to the priority area, as well as dates for completion of action items, and how they will know if they have achieved the goals.
• **Revisions to the Action Plan:** At the beginning of the second semester, the chapter has the opportunity to submit any revisions to the action plan submitted in the previous semester. These revisions should take into consideration the chapter’s updated plans, as well as modifications related to any learning or changes in chapter culture/behavior throughout the previous semester. If the chapter does not wish to revise their action plan, they can submit their original action plan with a short reflection on why the action plan was not revised.

• **Reflection:** Each priority area includes an opportunity for chapters to reflect on the action plan that was created and implemented over the calendar year. Chapters should consider what was successful and areas for future improvement. The chapter should identify recommendations for the future related to their efforts in that priority area. Ideally, the reflection is designed to assist the chapter’s transition process from one officer to the next.

• **FSL Expectations:** The Office of Fraternity and Sorority Life expects that chapters will complete all requirements outlined of this section in each priority area by the listed deadlines.

• **Outcomes:** If chapters are successful and high performing in the given priority area, it is expected the chapter will achieve the outcomes outlined for each area.

PRIORITY 1: ACADEMIC ACHIEVEMENT

The primary aim of fraternities and sororities is to assist members in their academic efforts. All chapters should actively work to support members in their academic efforts, promote lifelong learning, and create opportunities for growth and improvement related to academic excellence.

Assessment
At the beginning of each academic year the chapter evaluates their academic program, as well as their previous year’s academic achievement, and sets goals for improvement. [10 points]

Documentation must include a written summary of the results of the assessment and chapter goals for improvement. [Due September 11, 2015]

Remember!
Academic goals for improvement should be both at the individual level, as well as the chapter level. In addition, all goals should be SMART: Specific, Measureable, Attainable, Relevant, and Timely.

Have you thought about this?
At the beginning of each semester, pull a group of relevant officers together to review the previous semester’s academic achievement and the chapter’s academic program. Look for trends, including strengths and areas of improvement. Discuss any changes needing to be made that will help the chapter reach its academic goals. Don’t forget to take minutes to document what was discussed!

Action Plan
You’ve assessed the current state of your chapter’s academic program and set goals to improve, but what is your step by step plan to achieving those goals? Following the completion of evaluation and goal setting, the chapter should develop the plan for achieving goals. [15 points]

Documentation includes a summary of the action plan, not to exceed five pages. [Due September 25, 2015]

What does Current Research Recommend?
Based on current research and best practices, we recommend having the following items in your chapter’s academic program:

Academic Assistance Programs
- Programs for members who fail to meet academic requirements
- Procedures to monitor academic progress of members throughout semester
- Information, resources and strategies for improvement provided to members
- Academic Workshops related to academic skill building and/or post-collegiate planning that have been coordinated by, presented to, or attended by the chapter.

  - Procedures to monitor academic progress of new members
  - Information, resources and strategies for improvement provided to new members

Faculty Involvement and Interaction with Chapter
- Interaction with Chapter’s Faculty/Staff Advisor

- Recognition provided by chapter for faculty members
Revisions to the Action Plan
You've been utilizing your action plan for a semester – is it working? Do you want to change anything? Tell us about it! [5 points]

Documentation includes one of the following options: [Due January 29, 2016]
- The current action plan and the rationale behind not making any changes at this time. Explanation should not exceed 1 page.
- A revised action plan and an explanation of changes are being made at this time. Explanation should not exceed 1 page.

Reflection
As your term of office comes to a close, we want you to spend some time considering your plan and its effectiveness. What kind of impact did you have within your chapter? How will the impact be sustained? What suggestions do you have for future officers? What are you most proud of? What do you wish you could have done? [15 points]

What should a SMART-design scholarship plan include?
SMART Goals: All goals for the scholarship plan should be Specific, Measureable, Attainable, Relevant, and Timely.
Academic Performance: The plan should discuss how the chapter will create and encourage opportunities to raise individual GPAs.
Recognition: The scholarship plan should explain how academically successful members are recognized and how the chapter utilized incentives.
Harm Reduction is an important component of the fraternity and sorority experience. Harm reduction includes the promotion of a healthy lifestyle, understanding membership expectations, and the accountability measures associated with failure to meet them.

Assessment
At the beginning of each academic year the chapter conducts an assessment to identify the current needs of their harm reduction approach. This assessment should address three major areas: knowledge of chapter members surrounding policies/laws, effectiveness of enforcement and accountability strategies, and needs of the membership in the area of harm reduction. Based upon this assessment, the chapter should create goals for increasing chapter competencies in each of the areas throughout the academic year. [10 points]
Documentation must include a written summary of the results of the assessment for each of the three areas and chapter goals for improvement. [Due September 11, 2015]

Action Plan

[10 points]
Community service and philanthropy are important components of the fraternity and sorority experience. Community service includes the giving of our time and abilities to provide individuals or organizations with hands-on support. Philanthropy involves the raising of awareness and resources to assist with the mission of a charitable organization.

What Is a Membership Intake/Recruitment Action Plan?
This plan should describe the chapter’s intentions and approach in attracting and recruiting new members. Explain how the chapter’s recruitment or intake process incorporates the values of the organization.
